OBJECTIVE

Motivated Software Engineering student at FAST NUCES (Chiniot-Faisalabad Campus) with hands-on experience building C++ systems and dynamic web applications. Seeking a role as a Website Developer or Software Engineer to apply strong programming fundamentals, object-oriented design skills, and a passion for crafting clean, efficient software.

EDUCATION

Bachelor of Software Engineering

2024 – 2028 (Expected)

National University of Computer and Emerging Sciences (FAST) — Chiniot-Faisalabad Campus

Relevant Coursework: Object-Oriented Programming · Data Structures & Algorithms · Software Engineering · Web Development · Software Requirement Engineering · Database Systems · Discrete Structures · Operating Systems

Intermediate — Pre-Engineering

BISE Sahiwal

2022 – 2024

Matriculation — Science

BISE Sahiwal

2020 – 2022

SKILLS

Languages:

C++, JavaScript, HTML5, CSS3

Web:

Responsive Design, DOM Manipulation, REST APIs, Fetch API

Tools:

VS Code, Git, GitHub, Netlify

Concepts:

OOP, Data Structures, Algorithms, SDLC, Problem Solving

Soft Skills:

Team Collaboration, Time Management, Fast Learner

ACADEMIC PROJECTS

CareerQuest — Smart Career Counselling System

C++ · Console Application

- Built a fully console-based intelligent career counselling tool in pure C++ with no external libraries.
- Designed logic to evaluate student interests and academic strengths, mapping them to suitable career paths.
- Demonstrates strong command of C++ fundamentals, control flow, and modular program architecture.

Hotel Management System

C++ · Object-Oriented Programming

- Developed a complete hotel management system applying core OOP principles: encapsulation, inheritance, and polymorphism.
- Implemented modules for room booking, guest record management, billing, and real-time availability tracking.

Currency Converter App

HTML · CSS · JavaScript · REST API

- Developed a responsive web application fetching live exchange rates from a public currency REST API.
- Implemented real-time multi-currency conversion using async JavaScript and dynamic DOM manipulation.
